

# TEENS TALK about *On the PATH*

This book reminds me that my mind is a powerful tool and a lot depends upon the choices I make. But no matter the choices, I must indeed remember that God's love is unconditional and unceasing. As I read *On the PATH*, I realized that being LOST does not make me a bad person, it simply makes me human, as we all are. God carries me through it all. Once I get on the PATH, God still carries me. I am the farthest thing from perfect. However, that's okay because *On the PATH* has shown me I can work on being a better me today and every day for the rest of my existence.

*Kendall, 17*

*On the PATH* is a learning tool unlike any other textbook. It is amazing how a lot of these concepts stayed with me five years after I went through the program. I see, and still use, concepts such as "The Line" and "The Frame" in everyday interactions. I recommend this book for students of all ages, as I would be LOST without it."

*Patrick, 19*

I'm not sure about other schools, but at my school religion classes tend to be kind of general. They are not geared towards teens, but they are being taught to teens. *On the PATH* is a great new approach for teaching religion to teens. It uses metaphors and current examples taken directly from our everyday lives, plus it uses a good balance of humor. If this book was taught, a lot more students would stay attentive and find learning about their faith to be more interesting,

challenging, and definitely more engaging.

*Matt, 17*

As a college freshmen at a public university, I wish that I had read *On the PATH* when I was younger. I know it would have made me stronger in my faith and given me the confidence to face everyday obstacles. Though I participated in a program similar to this when I was in middle school, it was missing the faith connection, and that piece makes all the difference. *On the PATH* not only shows teens how to conquer obstacles and confrontations, but how to face them with personal faith, Scripture, and tradition as our backbone and support.

*Sarah, 19*
